

FALL CLEAN-UP WEEK

October 11 - 14, 2011

Extra refuse is collected from City customers, without charge, during clean-up week. Please have the extra waste material in plastic bags or cartons to assist in the pickup, and set it out on your regular refuse collection day. (Note that depending on the size and weight of the refuse, it may not get picked up until later that day or later in the week).

This service does NOT include tires, propane tanks, or items normally charged for at the Terrace Landfill (such as commercial waste, car bodies, stumps, and major appliances), nor any items accepted at EPR Drop-Off locations (such as electronics, batteries, paint, pesticides, and flammable liquids).

For any inquiries about this service, phone Public Works at 250-615-4021.

Thank you for using the EPR locations and keeping those items out of the landfill. A full list follows.
