

# Welcome

## Help in creating a shared vision for Terrace's future!

The City of Terrace is looking to the future in 2009. We are updating our Official Community Plan and working to develop a sustainability action plan.

The ideas and content in these 10 panels is the outcome of public input from community visioning sessions that took place on April 23rd and 24th, 2009.

Please take a moment to review the goals and measurable outcomes that have emerged so far and share your thoughts and feedback with us...

We need **your ideas and dreams** to develop policies and strategies which will influence community decision making and ensure the city of Terrace is a vibrant and resilient community in 5, 10, 15 and ultimately 40 years.

**Today, let us know what you think Terrace can do to be more sustainable!**
