

Spirit Square Feedback from City of Terrace College and High School Students (Northwest Community College, Caledonia Secondary and Centennial Christian School)

- *Instead of an outdoor gym, maybe a basketball court with a little hopscotch four square area as well*
- *Chairs or stands so that there are some bleachers to sit on*
- *A flower garden for a relaxing area with benches to sit at and have a picnic*
- *Some sort of monument than represents Terrace, example of two bears with a fish in the middle*
- *Instead of a splash area, make a small wading pool for children*
- *Put in some more benches with some flowers by them and some areas with a public washroom and fountain*
- *Lights around perimeter of band shell that would light up the mural painted along the backside of the band shell. Mural should be done by a local artist*
- *Balcony off library accessed only from library on which people could sit outside at tables and read. From the balcony they could see the park*
- *Old fashioned lamp posts, benches all along the walkway on which people could sit outside table and read*
- *Remove all large trees so that there is no place for individuals to sleep or hide. Have only shrubs and flowers*
- *Put the senior's gym in the center of the park; no one wants to work out beside a busy street or where people in the dentist's office can look down at you.*
- *I would keep the area along the Park Ave. as tables for people to eat their lunches at*
- *Plaza – I think a central fountain or statue surrounded by bricks and tables where people can stop and eat or read*
- *I think there should be frequent patrolling of the park*
- *The gravel in the playground should be changed to a rubber surface*
- *The gravel pathway should be replaced with a brick or cobble street*
- *Water fountain – nice to look at and peaceful*
- *Flowers to add color*
- *Murals on band shell*
- *No exercise place or water park – useless*
- *A skateboard park on the west side of the park because it will be more accessible and*
- *Noticed, and would make it safer and more drug and alcohol free. A new skateboard park would also benefit all the skateboarders/bikers/rollerbladers because it would be a new park and have more features. It might also attract tourism because riders want to see a new park. Also parents would feel more comfortable leaving there kids at the park to play*
- *More lights*
- *Walkway extended*

- *Washrooms in more convenient place*
- *Café that extends onto library*
- *Basketball court put in by tennis courts*
- *Find somewhere in Terrace for Go-Karts*
- *Climbing wall built on back of Band shell*
- *Chessboards painted on some of the tables*
- *Accessible garbage cans*
- *More places to sit and eat*
- *Climbable public art*
- *Get rid of big trees and bushes and replace with flowers and smaller trees*
- *Have light posts with flower pots*
- *Replace gravel path with bricks or cobblestone*
- *Fountain pond in middle*
- *More seating*
- *Entry should have an archway*
- *Wooden/Plexiglas shelter around perimeter of plaza*
- *Rubber ground on playground and senior park*
- *Cobblestone path surrounding perimeter of park*
- *In winter turn water park/pond into ice rink*
- *Gazebo in center of plaza – plenty of seating around plaza*
- *Have more concerts that are enjoyable for youth as well*
- *Duck pond/gardens*
- *Build gardens along the pathways*
- *Fix Emerson as an extension of the park*
- *Put a basement under the band shell for storage of chairs etc.*
- *Removing some trees near library will allow for more natural lighting*
- *Changes in elevation – along path*
- *Put parking in farmer's market space and move farmer's market*
- *Rails for skateboarders*
