

***NEWS RELEASE – City of Terrace Congratulates LNG Canada on their Final Investment Decision***

The City of Terrace would like to take the opportunity to sincerely congratulate LNG Canada on their Final Investment Decision. This decision to invest in the northwest British Columbia economy, culture and future is paramount to any other economic decision in the recent history of our city.

We applaud the hard work of the Haisla Nation and the District of Kitimat in working toward strong, long-term relationships with their economic partners which benefit our region of BC.

The LNG Canada project will provide many jobs for our residents during construction and a strong future for our children and grandchildren through investments in social and educational programs.

“I look forward to continuing to work with LNG Canada and our neighbors to support the construction of the largest infrastructure project in Canadian history. We welcome the economic stability and diversity this project has to offer our city,” said Mayor Carol Leclerc.
