

Temporary Expanded Service Areas

Temporary Expanded Service Areas (TESAs) provide short-term outdoor spaces for Liquor and Food Primary and Manufacturer licensees to serve their customers.

Under the Liquor and Cannabis Regulation Branch (LCRB) Policy 20–26, all LCRB application fees associated with TESAs have been waived to help support businesses meet physical distancing guidelines.

WHAT DO YOU MEAN BY "TEMPORARY"?

The expiry for TESAs authorized or applied for under this policy is currently **October 31, 2021**.

This may be extended as per LCRB direction.

HOW DOES IT WORK?

Interested businesses are to submit a basic site plan to the City of Terrace prior to installation that includes the proposed TESA:

- Dimensions
- Distance to property lines
- Maximum occupancy
- Perimeter barrier material
- Safety details (i.e. signage, lighting)
- Any additional design details

Following municipal approval of the site plan, a municipal support letter for the TESA can be issued. Staff will strive to efficiently provide approval of the proposed TESA.

CAN I MAKE IT PERMANENT?

Construction of permanent patios are considered a structural change and are required to go through the regular LCRB and municipal approval processes.
